

**WebMite Rev3 ,Manual, MMBasic Ver 5.08.00, Some Manual Errors. Found From 11/02/24 to 23/08/24.
Page, Detail of missing or misleading Error itself, notes.**

	A	B	C	D
1	100	INC var [,increment], "increment" can have a negative. (Geoff, not in ANY eariler MM Manuals?)	Command Unknownn	GWBasic std cmd unimplemented?
2				
3	5	Download the WebMite firmware from http://geoffg.net/WebMite.html	Dead-link, no page	Inoperative
4	5	the firmware file https://geoffg.net/Downloads/PicoMite/Clear_Flash.uf2	Dead-link, no page	Inoperative
5				
6	28	Graphics Commands and Functions..... LINE 10, 10, 200, 200, RGB(yellow)	Line thickness, ...1, RGB missing	Web demo example fails
7				
8	29	on\$ CANNOT be used as example, conflicting with known "ON nbr GOTO" in Gwbasic.	Misleading known conflict	Example fails, bad as it fails in BAS
9				
10				
11	49	TEMPR(pin), although mentions 0.25 resolution, only its "precision" ADJ is found in.....?	No mention precision adjustable?	Confusing as unknown.
12	126	TEMPR START pin [, precision]. 0.5, 0.25 etc. Relating to Page 49, but purpose poorly explained?	Explain function purpose, missing?	Confusing, clear reason to use?
13				
14	72-74	MM.INFO, Can do string, \$? These ARE very vague and needs major quote \$ of those that do!	MM.INFO\$ do more than listed	Misleading, not relieved if \$ works
15				
16	74	MM.INF(TCPIP STATUS)	INF? Try INFO, O missing!	Example fails
17	74	MM.INF(TCPIP STATUS) , MM.INFO(WIFI STATUS)	Explain lists same? No explain?	Confusing, overlapping results?
18				
19	129	Watchdog.....Watchdog	Updated, but Duplicated instead	Confusing if one docent realise new
